AKG—Air and Water Cooled Heat Exchangers, Custom Cooling Systems

Balluff—Inductive, Photoelectric, Capacitive, Laser Sensors, Remote ID Systems, Linear Transducers, Connectors/Cables

Canfield Connectors—Interconnection for Hydraulic & Pneumatic Valves

Carlo Gavazzi—Panel Meters, Sensors, Switches & Safety Products

Daman Manifolds—Hydraulic Manifolds, Custom Manifolds

Dyna-Lift—Height Adjustable Ergonomic Lift Tables to 20,000 pounds

Flairline—Pneumatic and Light Duty Hydraulic Cylinders and Components

Hanna Cylinders—JIC/NFPA & Special Cylinders

HDM Hydraulics—Cylinders for OEM's

HPI—High Performance Hydraulic Gear Pumps, Motors, Power Packs

Hypercyl Aries Engineering—Hydra/Pneumatic Intensifier Cylinder and Presses

Interface Devices—Air Driven Pumps, Air/Oil Pumps to 10,000 PSI

Internormen - High Quality Filters, Contamination Technology

Intral Design—Motion Controllers, Brushless Servo Controllers, DC Motor Drives, Interface Software, Motors

LinTech - Precision Ball Screw & Belt Drive Positioning Tables

Metal Work Pneumatic—Pneumatic Cylinders, Valves, FRL's, Fittings, Grippers, Slides, and Rotary Actuators

Mitsubishi—PLC's, HMI's, Inverters, Servo Drives/Motors

Monarch—AC/DC Hydraulic Power Units and Control Systems

Nachi—Variable Volume-Pressure Compensated, Piston and Vane Pumps, High performance Proportional Valves

Northman Hydraulics—Hydraulic valves, Modular Valves, High Pressure Vane Pumps

Rockford Linear—Hydraulic & Pneumatic JIC/NFPA & Special Cylinders

Stober—Zero Backlash Planetary Gearheads & Gear Reducers

Unitronics—PLC's with integrated graphic operator interface

Vescor—Hydraulic Reservoirs, Pumps, Motor Couplings and Hydraulic Accessories

Unique Automation LLC is a motion control/fluid power distributor that provides cost effective solutions for challenging customer applications. Our business model strategy is built on reduced overhead, competitive pricing, value added and friendly service for all our customers.

Mitsubishi Electric Automation— Offers a full line of automation equipment. Mitsubishi's product offering includes Programmable Logic Controllers (PLC's), Variable Frequency Drives (VFD's), Servo Motors and Drives, Motion Controls, HMI's, Motor Controls and Industrial Computers.

LinTech— Manufactures both standard and custom mechanical positioning components and systems. Positioning components consist of round rail shaft assemblies, linear bearings, and ball screw assemblies. Ball screw assemblies are offered in 3 different product groups - Rolled (RS series), Precision (PS series) and Ground (GS series). Positioning tables and slides can be belt or ball screw driven with high repeatability. Tables can carry up to 8 tons.

STÖBER— Has been a pioneer in the gearing industry since 1934. Through constant innovation, STÖBER today is known for high performance, high efficiency, and low noise, encompassing various gearing solutions offered to the industry.

Unitronics— High performance PLC's with imbedded keypad and/or graphic touch panel. Unitronics all-in-one programming software is easy to use.

Carlo Gavazzi— Viewed as "your local automation resource". Products include power supplies, manual motor starters, contactors, overloads, mechanical relays, solid state relays, ultrasonic sensors, light curtains, safety modules, safety mats, digital panel meters, temperature controllers, 22mm pushbuttons, and enclosures. Carlo Gavazzi products are high quality at a value conscious price.

Rockford Linear Actuation— A world leader in the design, manufacturing and sales of hydraulic and pneumatic linear actuation products. Experienced in all industrial cylinder applications. Rockford provides outstanding customer service with quality products, on-time delivery and competitive pricing through experienced personnel.

Canfield Connector— Canfield Connector is a manufacturer of interconnection devices, electronic timers, sensors, modules and specialty electronic devices targeted at the fluid power industry. Canfield's Complete Quality Control Program (CQCP) insures 100% test and inspection prior to shipment of all items produced at Canfield Connector.
