## Our business philosophy

is built on reduced overhead, competitive pricing, and friendly service for all our partners.

We were founded with the mission of continually improving the productivity of our partners by integrating systems with emerging products, high quality services, and ongoing support.

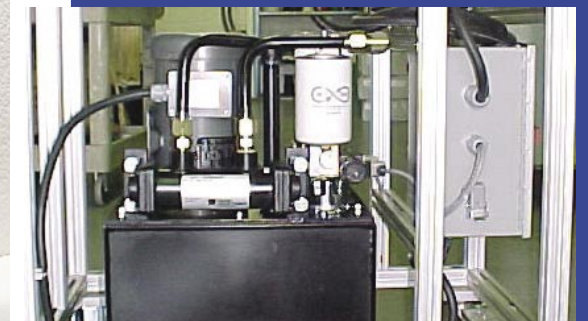

## Motion Control Experts

- COMPONENTS
- ASSEMBLY
- SYSTEMS
- ENGINEERING
- FABRICATION
- REPAIR

In addition to supplying cutting-edge automation products, we also **design and build innovative engineered systems** for leading manufacturing companies in the USA.

**Our team of engineers** has extensive hands-on experience in a wide array of applications, including hydraulic and controls on a variety of platforms.

**We service and support what we sell and more!**
